<td>According to the SOW the Term of the contract is 6 months; however, clearly the Scope of the work is for tasks that will span at least 3 years, to close-out of the program. Is this accurate? Should we build out the budget in 6 month increments for the length of time that we foresee this?</td>
<td>The terms of the contract can’t exceed FFR’s subrecipient contract agreement (December 31st, 2021), depending on the contract execution that would be 4 to 5 months. It is possible that a contract extension may happen depending on the program necessities but there is no guarantee.</td>
